Upcoming September, 2019 Classes

See the ACL website https://agecomputer.org/ for complete class description and future classes.

REGISTER ONLINE (Classes will be cancelled 48 hours ahead if not enough enrollees.)

GPS Navigation

GPS Phone Navigation for Austin Traffic (Tuesday, September 10 at 1:00 p.m. – $25)
In this class, we'll provide an introduction of how to use cell phone apps Waze and Google Maps, which leverage our GPS location data to help us plan our journeys around Austin and navigate the traffic once we are on the road. We will focus on Waze and Google Maps as those are the most popular and run on both iPhone and Android platforms. We’ll also touch on Apple Maps as an alternate option in some situations. In addition, we will spend some time talking about how to avoid some of the pitfalls and how to really leverage Waze by linking it to your cell phone address book and calendar.

Photography

Comparing Photo Editing Software (Deal of the Month — Friday, September 13 at 1:00 p.m. – $10)
Our photo editing requirements change over time as we take more phone photos and fewer DSLR photos. It could be we are just looking for something simpler to use with better results. Come and see what's currently available on the market for your photo editing skills. There is no one answer. All of our workflows are different. Adobe Lightroom, Adobe Photoshop Elements, Adobe Photoshop, Luminar 3 by Skylum, Affinity, PhaseOne Capture One, Corel Paint Shop Pro, On1 Photo RAW, and Photo Works, to name a few recommended ones for the PC. Also MAC software will be discussed for photo editing as well.

Making a Photo Calendar for 2020 (Monday, September 23 at 1:00 p.m. – $25)
In this seminar, you will learn how to make a personalized calendar that will make a great gift. Each month can be created by using a 5x7 template that has the month on the bottom or the side, along with your special image. We will explore special tips and tricks for transforming images into watercolors or adding fancy frames, using Adobe Photoshop Elements, Corel Paint Shop Pro, or a layering program of your choice. Layering is a photo-editing feature that allows you to stack one image on top of another and produce impressive results. Come and learn how to create something memorable.
Note: Bring 12 photos on a flash drive or CD to use to make a 2020 calendar.

Home Network

Set Up Your Own Home Network (Thursday, September 26 at 1:00 p.m. – $25)
Most households and offices have several desktop and/or laptop computers and a need to conveniently share files, printers and an internet connection among them. The best way to do this is with a Home Network or Local Area Network (LAN).
We will show you how connect the computers together with wires (Ethernet) and/or wirelessly with Wi-Fi. You’ll then learn how to configure the computers to share files and printers with one another and also how to connect your smart phone into this Wi-Fi network.
